## Litigation Brief

➤ **Delhi High Court clarifies issues arising in execution of foreign arbitral awards in India.**

**The** Hon'ble Delhi High Court in a recent Judgment in *Progetto Grano S.P.A. v. Shri Lal Mahal Limited*, (Judgment, dated 29.05.2014), has settled two very pertinent aspects of the execution of foreign arbitral awards in India.

In the present case, the decree-holders had filed an Execution Petition under Section 49 of the Arbitration and Conciliation Act, 1996 ("Act") before Delhi High Court, seeking execution of two foreign arbitral awards. The Judgment-debtor raised objections under Section 48 of the Act which was rejected by the High Court as well as the Hon'ble Supreme Court.

The question arose as to what should be the relevant date for application of rate of exchange (as the sum was awarded in a foreign currency). The Delhi High Court held that the date when all the objections to the award were finally overruled by the Supreme Court and the award attained finality and became enforceable,

and not the date of the award, would be the relevant date for applying the rate of exchange.

Another very pertinent issue that arose was whether the decree-holder was entitled to any post-award interest. The Delhi High Court held that the decree-holder was not entitled to any post-award interest as the same is not provided under Part II of the Act, which deals with the Foreign Arbitral Awards. Interestingly, the Hon'ble High Court observed that only provision in the Act providing for post-award interest, is Section 31(7) contained in Part I of the Act dealing with domestic arbitration. However, the same could not be imported under Part II of the Act in view of the Constitutional Bench decision of Hon'ble Supreme Court in Bharat Aluminium Company vs. Kaiser Aluminium Technical Services 2012 (9) SCC 552, which has clearly laid down that there cannot be intermingling of provisions of Part I and II of the Act.

The said Judgment has indeed crystallized the issue of relevant date for applying rate of foreign exchange. However, as regards non-entitlement of post-award interest, it has put a premium to dishonest objections being raised merely to delay the execution of a foreign arbitral award, which may have adverse consequences upon a decree-holder.

### ➤ Competition Commission of India imposes penalty for delay in notifying the proposed acquisition deal.

In a recent landmark decision, dated 27.05.2014, the Competition Commission of India ("CCI") has imposed a penalty of Rs. 3 Crores upon Tesco Overseas Investments Limited ("TOIL") for delay in notifying the proposed acquisition of 50% shares of Trent Hypermarket Limited.

The TOIL notified the CCI about the proposed acquisition, vide Notice, dated 31.03.2014, under Section 6(2) of the Competition Act, 2002 ("Act"), whereby it was learnt that it had sought the approval of the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry ("DIPP") and Foreign Investment and Promotion Board, Ministry of Finance ("FIPB"), for the proposed transaction on 17.12.2013.

It is to be noted that as per Section 6(2) of the Act, any person or enterprise which proposes to enter into a

combination has to notify the CCI within 30 days of approval of proposed transaction by the Board of Directors and/or execution of any definitive Agreement concerning the transaction. However, in the present case, TOIL issued statutory notice to CCI only on 31.03.2014, i.e. with a delay of 73 days.

It was contended on behalf of TOIL that merely seeking approval from DIPP and FIPB did not amount to any express intention to execute the proposed transaction. It was subject to execution of definitive Agreements between the parties. It was further contended that Notice without executing the definitive Agreements would have amounted to incomplete disclosure of information.

However, the CCI has overruled the aforesaid objections raised by TOIL. It observed that it was quite clear from Letters submitted before DIPP and FIPB that the parties sufficiently knew about the proposed business arrangement. The CCI has, however, imposed a meager penalty of INR 3 Crores upon TOIL, although Section 43A of the Act provides for a penalty extending upto one percent of the turnover or assets (INR 600 Crores in the present case).

The said Judgment is a slightly harsher application of the provisions of the Competition Act. The CCI has imposed the penalty even when it clearly observed that TOIL has acted in a bonafide manner. Such obligation upon the corporates to make pre-mature disclosures may adversely affect the business community.
